

# Great Western Highway and Pages Road, St Marys

## Project update

Roads and Maritime Services | August 2018

The NSW Government is funding this proposal as part of its \$225 million Pinch Point Program which aims to reduce delays, manage congestion and improve travel times on Sydney's major roads.

Roads and Maritime Services are upgrading the intersection of the Great Western Highway, Pages Road and Charles Hackett Drive, St Marys.

We were scheduled to complete the work by the end of August 2018 but had to postpone street lighting upgrades due to design updates.

The following elements have been completed:

- adjusting the approaches of Pages Road to improve line of sight for right turning vehicles on Pages Road and Charles Hackett Drive
- extending the right turn bays on the north and south approaches
- changing the left only lanes to through and left turning lanes for the north and south approaches
- providing an additional lane on the southern exit of Pages Road
- adjusting the traffic lights and utilities on Pages Road
- adjusting and lengthening the median on Pages Road to improve safety.

The following elements are remaining:

- adding street lights on Pages Road and Charles Hackett Drive

This project aims to improve efficiency, safety and congestion on Sydney's road network.

To achieve the best result for this intersection upgrade, existing "No parking" zones have been extended 165 metres on each side of Pages Road and Charles Hackett Drive from Sainsbury Street to Gabriels Lane.
